

In the Matter of

Amendment of the Commission's Rules with
Respect to the General Mobile Radio Service
to Extend the License Period to Ten Years or
Reduce the License Fee

By W. Lee McVey, P.E.,

To: Chief, Public Safety and Private Wireless
Branch, Wireless Telecommunications Bureau

This subject Petition should be granted so as to make the license term for General Mobile Radio Service Licenses ten years to be consistent with other services and to reduce Commission processing effort associated with license renewals.

-1-

The General Mobile Radio Service has played a significant role in providing public assistance in emergency and disaster situations. Increasing the license duration will provide further incentive to install and maintain GMRS mobile relay systems, thus improving availability during disasters and emergencies.

Respectfully Submitted,

(electronically)

W. Lee McVey, P.E.
